Software Developer/Computer Engineer

Objective   Seeking a position in the computer engineering field, focusing on competitive programming and system development projects.

Experience   **Independent Programmer**
Worked with several clients to design and implement various custom solutions, utilizing a wide range of programming skills and computer knowledge. Have written a wide range of applications in various programming languages for my personal use and/or school projects.

Web Programming
Designed, programmed and maintained high school's web site. Created, administrated and supervised a web site team. Currently administrating two websites: one is a multi-user site utilizing ASP and SQL Server technologies, and other is a programming information site.

Sample sites: http://65.204.64.138/fp and http://vbxzone.tripod.com

Education   2000 – Present   Illinois Institute of   Chicago, IL
                                      Technology
Pursuing Bachelor's dual degree in Computer Engineering and Electrical Engineering. Graduation date: 2004 May.

1999 – 2000   Notre Dam HS   Niles, IL
Graduated with First Honors from Notre Dame High School.

1988 – 1999   Azuolynas School   Klaipeda, Lithuania
Attended elementary, middle, and three years of high school.

Skills   **Programming:** C++, C#, Visual Basic, Java, .NET framework, Perl, XML.
Operating Systems: Windows 95/98/2000/XP, Linux, Unix.
Web Programming: ASP, ASP.NET, HTML, JavaScript.
Databases: SQL Server, Access, SQL.
Electrical Engineering: Experience in simple circuit analysis, transistor circuits, PSpice.
